

OneSign Cold Lamination Crosshatch Film

Datasheet

Specifications

OneSign Cold Lamination Crosshatch Film

Product Introduction:

OneSign Cold Lamination Crosshatch Film adds a unique crossed line texture to printed images. Not only will the film protect digital prints from scratches and contaminants, but it also will help prevent fading, yellowing and shrinking. Its strong adhesive guarantees lasting results. The crosshatch effect enhances the appearance of portraits and photographic albums.

Film thickness:

80 micron

Release paper:

140+/-10g/sqm

Size:

1.27m (50") x 50m (54yds)

Length tolerance:

+/-200mm

Width Tolerance:

+/-5mm

Temperature range:

from -40°C ~ +100°C (-40°F ~ +212°F)

Packaging:

Carton box

Storage time:

1 year

Durability:

1 year

Applications:
