## 5 in 1

### Datasheet

## Specifications

## SID Mug Heat Press 5 in 1

**Description:** Light weight and portable, for use at malls, flea markets, shows, and more  
Fully digital 2 in1 temperature and time control  
Easy pressure adjustment  
Solid steel welded framework  
Digital technology and reliable performance  
Five heating mats allow you to work fast and to save time

**Packaging Dimensions:** 37" x 18" x 12" (930mm x 450mm x 305mm)

**Gross Weight:** 66 lb (30 kg)

**Voltage:** 110 volts 50HZ/60HZ

**Power:** 1500 watts

**Temperature range:** From 32°F ~ 750°F (0°C ~ 399°C)

**Heating time:** 2 ~ 3 minutes

**Temperature adjustment time:** 356°F (180°C) 3 minutes

**Mug diameter range:** 3.18", 2.95", 2.55" (81mm, 75mm, 65mm)

**Mug height:** 4.92" (125mm)

**Warranty:** One year warranty on entire press

**Features:** Opens extra wide to allow for easy and fast loading and unloading of mugs from the press. The thick solid steel framework and die-cast clamp assembly provide a heavy duty framework for non-stop use. The clamp assembly can be adjusted for very heavy pressure, allowing for full bleed transfers on even the most demanding mugs. Finally -- a mug press that compensates for less than perfectly straight mugs!
